

Leamington's thriving art scene plays out in studios, galleries and walls around the town.

And it's enhanced by annual events, such as *Art in the Park* and *Warwickshire Open Studios*, as well as temporary and permanent exhibitions in the *Leamington Art Gallery & Museum*.

This trail is focused on the work commissioned as part of *Leamington Mural Festival* by *Brink Contemporary Arts*, though as you explore the streets you will encounter other artworks, changes and additions to our urban landscape.

Brink are a street art organisation based in Leamington Spa whose curator produces his own work as 'Lord Numb', as well as working with a wide range of guest artists, many of which are featured in this guide.
